

4th European Summit on the Future Internet

13-14 June - Aveiro, Portugal

Ana Aguiar is Assistant Professor at the Faculty of Engineering of the University of Porto and researcher at Instituto de Telecomunicações (IT). Ana graduated in Electrical and Computer Engineering from the FEUP and received a PhD in Engineering (Telecommunication Networks) from the Technical University of Berlin. Her research interests lie in the field of wireless systems and networks, and she currently works on mobile sensing, machine-to-machine communications, data mining and social computing tools.

Previously, she worked as a senior researcher in building up Fraunhofer Portugal AICOS engaging in acquisition and management of applied research projects in the areas of wireless sensor networks, context-awareness and service-oriented architectures. She also worked as a cell planner and optimisation engineer for portuguese and german cellular operators.
