

4th European Summit on the Future Internet

13-14 June - Aveiro, Portugal

Gabriele Ruffatti is Architectures & Consulting Director of Engineering Group's Technical, Innovation & Research Division. He has held senior management positions at Engineering Group in the fields of project and product management, software process improvement and design of innovative software architectures. He is currently the corporate focal point for open source initiatives. In 2004 he founded the SpagoWorld initiative.

In 2013 he has been elected Chairman of OW2 Consortium, of which Engineering Group is a founding member. Gabriele participates actively in the Eclipse Foundation and the FLOSS Competence Center network. Since 2009 he has been part of the organizational committee of the fOSSa conference in France. He is also a member of the program committee of various conferences dealing with open source, software processes and big data. Gabriele has lectured at Engineering Group's ICT Training School on software engineering & quality and he has been adjunct professor for open source software at the University of Padua, Italy.

Supporter of various initiatives bringing innovation to research and education, Gabriele cooperates with research institutes, universities and students, through workshops, presentations, internships and degree thesis support.
