

# 4th European Summit on the Future Internet

13-14 June - Aveiro, Portugal

**João Schwarz da Silva** received a PhD on the Performance Analysis of Mobile Packet Radio Systems from Carleton University, Ottawa, Canada in 1981 and a Master and Bachelors degree on Electrical Engineering from the Ecole Polytechnique, Montreal, Canada in 1971 and 1970. He is currently a Research Fellow with the Centre for Interdisciplinary Research on Security, Reliability and Trust with the University of Luxembourg.

He joined the European Commission in 1991. In 2004 he was appointed Director of the Network and Communication and further on Director of Converged Networks and Services, where he had the overall responsibility for all the R&D work relating to mobile communications, broadband networks including satellite communications, audio-visual and home networks; trust and security, software engineering and ICT for business applications.

In 2005 he initiated a major European R&D drive toward the Future Internet, which has led to the establishment of the Future Internet Assembly and the Future Internet Forum and of a European Future Internet Public-Private-Partnership . He retired from the European Commission in 2010.

He is member of the Consultative Committee of the Portuguese Telecommunications Competitiveness Pole, the Advisory Board of the European Alliance for Innovation and the Scientific Council of France Telecom.
