

4th European Summit on the Future Internet

13-14 June - Aveiro, Portugal

Jonathan Cave is Senior Research Fellow at RAND Europe and Senior Tutor in Economics at the University of Warwick. He is an applied game theorist with extensive experience in financial economics, policy, regulation and law and economics, and degrees from Yale, Cambridge and Stanford. His recent policy work has studied many aspects of broadband, spectrum and Internet regulation and policy, related topics such as privacy, cloud computing and the Internet of Things, the Future Internet PPP and modern financial markets (esp. computer-based and algorithmic trading). He has also led and participated in a wide range of policy analysis projects relating to innovation, competitiveness and competition.

Related academic work and PhD supervision have dealt extensively with modern financial markets and healthcare systems as complex adaptive networks and with their implications for governance.
