

4th European Summit on the Future Internet

13-14 June - Aveiro, Portugal

Philippe Lefebvre is head of sector in the Network Technologies unit of the European Commission (“Directorate-General for Communications Networks, Content and Technology”), responsible for research and innovation funding in wireless technology.

Before moving to his current unit in 2012, Mr. Lefebvre worked in the EU spectrum policy field where he was in charge of the digital dividend policy and of spectrum policy for terrestrial broadcasting. Mr Lefebvre also worked in several other Commission departments related to research and innovation including in the area of electronic commerce and as head of sector for the development of advanced financial systems & technologies.

Prior to joining the European Commission, Philippe Lefebvre held several technical and marketing positions in the banking industry, with the Belgian’s Generale Bank – now BNP Paribas Fortis (1983-1986), Eurocard International – now MasterCard Europe - as vice-president Southern Europe (1987-1991), and with Visa International in the US (1992-1995).

Philippe Lefebvre is graduated in electrical & mechanical engineering (MS) from the University of Brussels (ULB) and graduated in economics (MBA) from the same university.
