Abstract — This document describes the format for the papers to be submitted for presentation at the 7th Conference on Telecommunications (ConfTele 2009). It is mostly based on what the IEEE recommends for similar publications. The abstract is limited to 100 words. Use size 9 bold for the abstract.

I. INTRODUCTION

Final camera-ready papers must be submitted in PDF format according to the formats specified in this document for immediate publishing after acceptance.

II. FORMATTING

A. General Format

Manuscripts should be formatted to A4 paper size (21.0×29.7cm). The text must be formatted in two columns, with 8.75cm width. Use size 10 Times font in the body of the text with single line spacing. Table I shows the page margins.

Table I
Page margins

Left margin	1.4cm
Right margin	1.4cm
Top margin	2.8cm
Bottom margin	2.8cm

B. Title

The title is page-centered, using the width of two columns, but within the margins. Size is 14, bold. All words should be capitalized except prepositions, articles and conjunctions. The name(s) of the author(s) (12pt), affiliation and full address, including phone, fax and e-mail, should follow immediately, on separate lines (10pt).

C. Headings

Section titles and subsection titles should be distinct and stand out from the text itself. Small capitals must be used for section titles (e.g., II. FORMATTING) and italic for subsections (e.g., C. Headings).

D. Figures and Tables

Figures and tables should be placed as close as possible to their first mention in the text. Text within figures and tables

should be smaller in size but still large enough for clear reproduction. Size 9 or 8 is recommended.

All figures and tables should have a sequential numbering, with caption above tables and underneath figures, as shown on Table I and Figure 1.

Fig. 1. Example of a figure and its caption.

E. References

All bibliographic references should appear at the end of the document, in a separate section entitled “REFERENCES”. The correct format is instanced, for various kinds of publications, at the end of this text. Citations in the text that point to a particular reference are indicated by the reference number within brackets [1].

F. Equation Numbering

Each equation must be centered on a separate line. They should have a sequence number (1), right justified.

G. Symbols and Acronyms

Use of symbols and units of the International System (SI) is recommended. All acronyms should be defined at the time of their first occurrence.

III. PAPER SUBMISSION

Potential authors are invited to submit camera-ready full papers, four pages long, in PDF format using the electronic submission procedure explained in the conference web site.

The deadline for submissions is December 31, 2008.

Submit all pertinent questions to the ConfTele 2009 secretariat e-mail: conftele2009@av.it.pt.
