

Summary from energy perspective

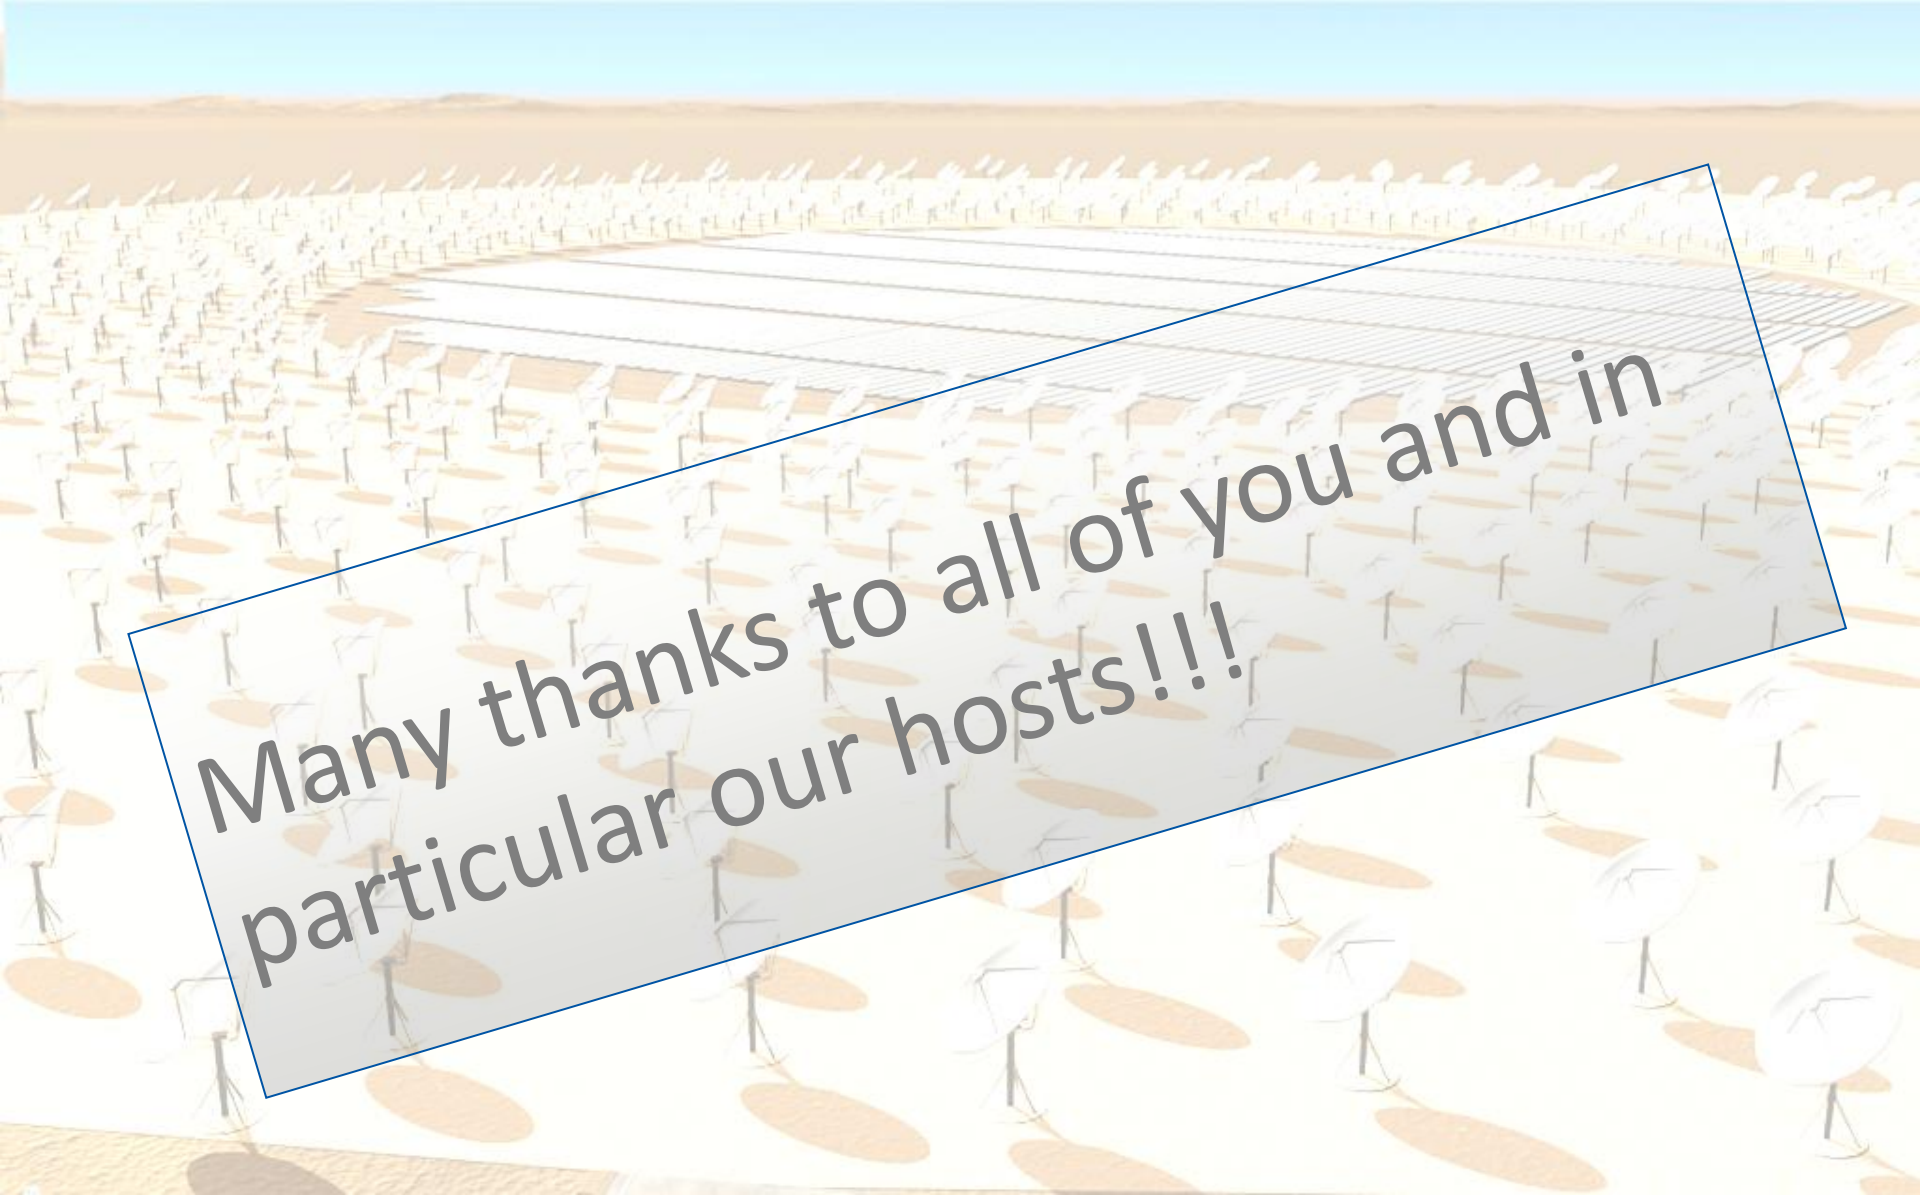

- Technical potential for Solar (based) energy for the SKA excellent (several speakers) and:
- From a societal perspective “*neccessary*”
 - Note: No policy in this sense from SKA Org. yet.....
 - The new, green astronomy .. Paradigm changes in/for R.A.!
- System level not yet costed nor designed however power envelope not increasing and tending < 100MW 24/7
 - Several approaches possible to reduce even further
- Call for demonstrators (e.g. EMMA) or directly full-out? When/how?
- Full attention from Iberia , Industries , SKA etc.
- EMC/RFI aspects essential as a-priori design issue

Summary from energy perspective

- Extremely fruitful meeting
 - Now widely perceived as essential approach
 - Also from EC perspective (H2020)
 - Many things to be resolved yet (see earlier) and:
 - SKA system design/AIP etc. not clear yet
 - Interest in SKA growing e.g. from Pt/Sp , Germ. and Korea; excellent positioning mechanism
- Next steps to be defined in collaboration @ SKA level
 - Important for involvement in demonstrators toward SKA
 - Moura as “Northern Hemisphere testsite?”
 - Credibility of approaches
 - Rules of engagement SKA-Industry

Summary from energy perspective

Many thanks to all of you and in particular our hosts!!!
